PROVOST POLICIES AND PROCEDURES**

Off-Campus Masters & Doctoral Programs Policy

POLICY

In order to meet additional guidelines and regulations regarding SACS, we are initiating a policy that all master's and doctoral programs previously approved by the Graduate Council which are currently operating at an off-campus location or will operate at an off-campus location, must be approved by the Dean of the Graduate School. This will be a simple administrative process, which will use appropriate record keeping in an effort to meet SACS requirements. Correspondence requesting approval should come from the appropriate Academic Dean.
